Prof. Indira Dhull (Retd.)
Department of Education
Dean College Development Council
M.D. University, Rohtak

I am glad to know that Ganga Institute of Education, Kablana is bringing out the first volume of its e-journal entitled 'Bhartiyam International Journal of Education and Research'. The college is already known for providing quality education to the students; it's yet another feather in their cap. I hope that this issue of e-journal would contain very useful information through its articles and research papers which would surely serve as a source of disseminating knowledge for all prospective readers. The Journal would also provide a platform for academicians and teacher educators to contribute on the current issues and areas of education. This would also help boost the image of the college in the public estimation.

On the occasion, I send my good wishes to the principal, students, staff, Editorial Board members and the management of the institution and wish the College a bright future. Keep it up!

Prof. Indira Dhull (Retd.)

It gives me immense pleasure to know that the Ganga Institute of Education, Kablana is bringing out the first volume of its e-journal entitled 'Bhartiyam International Journal of Education and Research' which I am sure will provide very useful information through its articles and the readers will relish.

Ganga Institute of Education has been doing sincere efforts in imparting quality education to its students and has over the years crated a niche for itself in the field of education. The enthusiasms with which the management, the teachers, the students and Editorial Board members have executed this literary work in 'Bhartiyam International Journal of Education and Research' is really praiseworthy and I compliment them for their hard work

With Best Wishes.

Tam glad to know that Ganga Institute of Education, Kablana is bringing out the next volume of its e-journal entitled "Bhartiyam International Journal of Education and Research.. Bhartiyam International Journal of Education and Research (BIJER) open a plethora a knowledge based information for all prospective readers.

I personally believe that Bharityam International Journal of Education and Research (BIJER) will connect us with the insight and knowledge and will inspire us to make our own contribution towards reflection of experience, sensation and apprehensions. I sincerely congratulate to the management, editorial team and all the staff members and the students for their relentless efforts without which issue could not see light of the day. 'Bhartiyam International Journal of Education and Research' (BUER) is like a reflection where the lofty ideas, deliberation and information meet to show every reader what a true endeavour towards dissemination of knowledge means.

I wish, I will, Lean

It is a matter of immense pleasure for me to learn that Ganga Institute of Education is engaged in the endeavour of bringing out of the next issue of Bhartiyam International Journal of Education & Research. I hope that this type of continuous effort on the part of the college will be helpful in providing a platform to the academicians for their contribution in the field education.

For this, the principal and her team really deserve whole-hearted appreciation for their sincere efforts to bring out this issue in this form. I wish to congratulate all those who have contributed to the journal. I also give my special congratulations to the management and the Chief Editor and her team for this dedicated effort and wish them to be all the best in every aspect of life.
